

Elkington

# Solid Överfalsad

Robust and versatile checker plate ground access hatch with lid and frame

## Product Sheet

Solid Överfalsad is designed for outdoor environments and ensures efficient smoke ventilation. The hatch functions both as an access hatch and a smoke vent, making it a flexible solution for commercial buildings, industrial facilities, and public environments.

*Please Note that this is a general product sheet and that specific details may vary between models, materials and options.*
